Transition Administrator (TA) Announces Start of Knowledge Sharing Activities

TA Provides Interactive Webinars to Facilitate the Reconfiguration Process

July 18, 2005, McLean, VA. - The TA announces, as part of its outreach and education efforts, interactive online web-seminars (Webinars) starting July 27, 2005 to 800 MHz licensees impacted by the reconfiguration program. The goal is to further assist licensees in understanding the guidelines and procedures involved in the reconfiguration process. Additionally, the TA would like to provide licensees with an open forum to ask questions, address concerns and interact with reconfiguration experts. The TA will be offering a series of Webinars that will focus on topics ranging from Planning & Negotiation to Acceptance of the System.

For the first module in the Webinar series "Planning & Negotiation," the TA anticipates a high attendance and as such will be prioritizing seats. The initial Webinars will target Wave 1 licensees who have started the voluntary negotiation process but may be in need of further assistance and Wave 2 licensees who begin the voluntary negotiation in September. Subsequent and additional Webinars will be offered during each Wave and will be based on demand.

Webinars will be offered according to system type – small or large – to ensure that licensees with common interests can share their issues and concerns. The TA website www.800TA.org will provide further information regarding system types, Webinars offered, how to download the Webinar tool and registration. If you have immediate questions or concerns, contact the TA Webinar team at comments@800TA.org.

About the 800 MHz Transition Administrator

800 MHz Transition Administrator, LLC ("TA LLC") is the Transition Administrator ("TA") for the reconfiguration of the 800 MHz band mandated by the Federal Communications Commission ("FCC"). TA LLC has contracted with BearingPoint, Inc., Squire, Sanders & Dempsey L.L.P. and Baseline Telecom, Inc. to perform the duties of the TA. Among its duties, the TA establishes reconfiguration guidelines, specifies replacement channels, reviews reconfiguration cost estimates, monitors payment of reconfiguration costs, manages the relocation schedule, facilitates issue resolution and administers the alternate dispute resolution process. TA LLC uses information it receives solely for the purposes of administering the 800 MHz reconfiguration process and may disclose such information to the FCC or other authorized parties pursuant to the requirements of the 800 MHz Order or other applicable laws.
